Finding What You Need: Search

On the home page (www.taylorfrancis.com), you can use the filtered search or browse subject areas, collections and products using the top navigation bar, or by scrolling down to the relevant section.

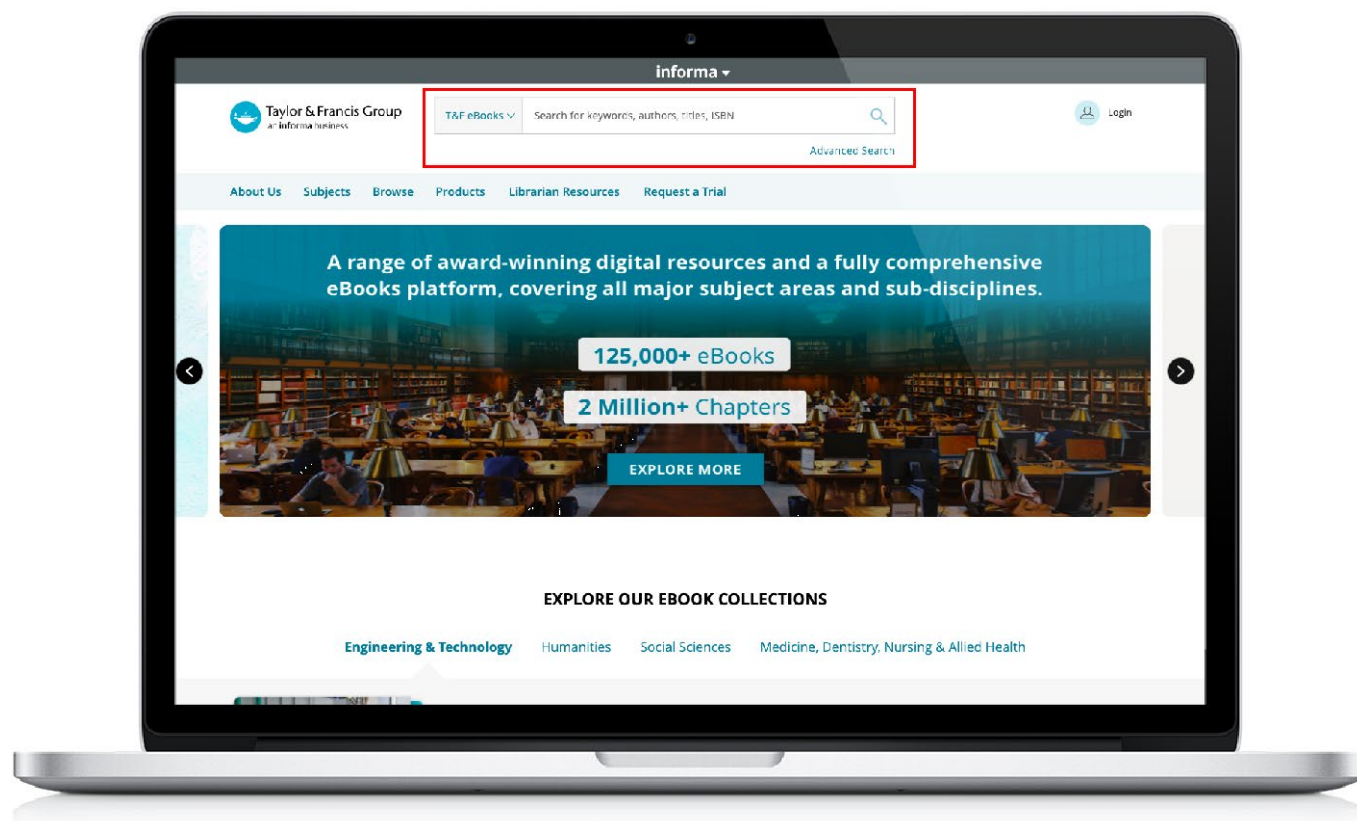

The Taylor & Francis Group homepage features a top navigation bar with links: About Us, **Subjects**, **Browse**, **Products**, Librarian Resources, Request a Trial, and What's New!. A search bar at the top right contains the text "T&F eBooks" and "Search for keywords, authors, titles, ISBN", with a "Filtered Search" button to its right. The main hero section displays a large image of a library with the text: "A range of award-winning digital resources and a fully comprehensive eBooks platform, covering all major subject areas and sub-disciplines." Below this, it states "125,000+ eBooks" and "2 Million+ Chapters", followed by an "EXPLORE MORE" button. A callout box on the left points to the "Browse" and "Subjects" links, stating "Browse by Subject Areas, eBook Collections or Products".

The "EXPLORE OUR EBOOK COLLECTIONS" section features a horizontal list of subject areas: Engineering & Technology, Humanities, Social Sciences, and Medicine, Dentistry, Nursing & Allied Health. A callout box on the right points to this section, stating "Browse by eBook Collections". Below the list, the "Engineering & Technology" section is highlighted, featuring a photo of a person working in a lab and the text: "We are a market-leading publisher in Engineering, Environmental Sciences, and Technology, offering advanced, emergent, and applied content that advances research, supports education, and provides solutions to real-world problems across all Engineering disciplines. Written by renowned experts from around the world, our content appeals to a wide-ranging audience, including students, instructors, librarians, and professional engineers- from the well-established to those just beginning their careers." Below this, a "FEATURED" section lists: ENGnetBASE >> MechanicalEngineeringnetBASE >>, CivilEngineeringnetBASE >> CHEMICALENGINEERINGnetBASE >>.

The "DISCOVER OUR PRODUCTS" section features the "SDG Online" logo and the text: "Sustainable Development Goals Online. A curated library to support the UNs' call to action to end poverty, fight inequality, and protect the planet. Click the link below to view the site and sign up for a free trial." Below this is an "EXPLORE" button. To the right, a grid of 17 Sustainable Development Goals icons is displayed, each with a number and a brief description. A callout box on the right points to this section, stating "Browse by Products".

Finding What You Need: Filtered Search

The main way to find content is filtered search, via the main search box.

FILTERED SEARCH

The filtered search field will initially search the title, author and keywords of a book. So, if a word or a string of words are entered, matches will be displayed.

From the initial query, users can then filter their search using a number of filters:

- » Search by Access Type
- » Search by Subject
- » Search by Publication Dates
- » Search by Imprint (e.g. Routledge, CRC Press).
- » Search by eBook Collections
- » Search by Authors

Finding What You Need: **Auto Complete**

When a user starts to type a word in the search bar, six titles will automatically appear.

If a user clicks on "View All", additional titles will also appear.

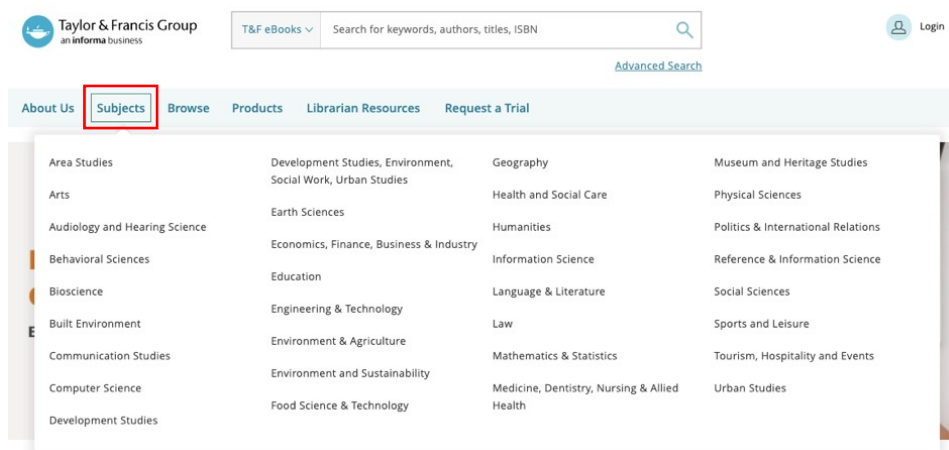

Finding What You Need: Exploring Our Content

Use the main menu bar at the top of the screen for browsing options. This navigation element is always available on all pages within the site.

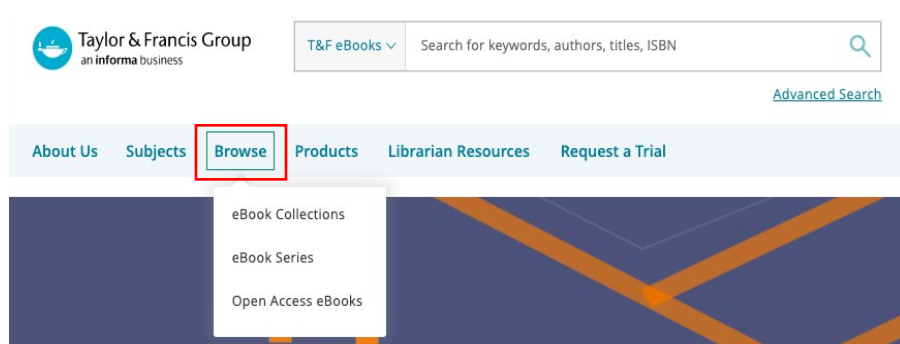

Search by subjects

Clicking 'Subjects' from the menu will open a dropdown with all subjects listed. Click on a subject to get a filtered list of eBooks under that subject.

Browse by

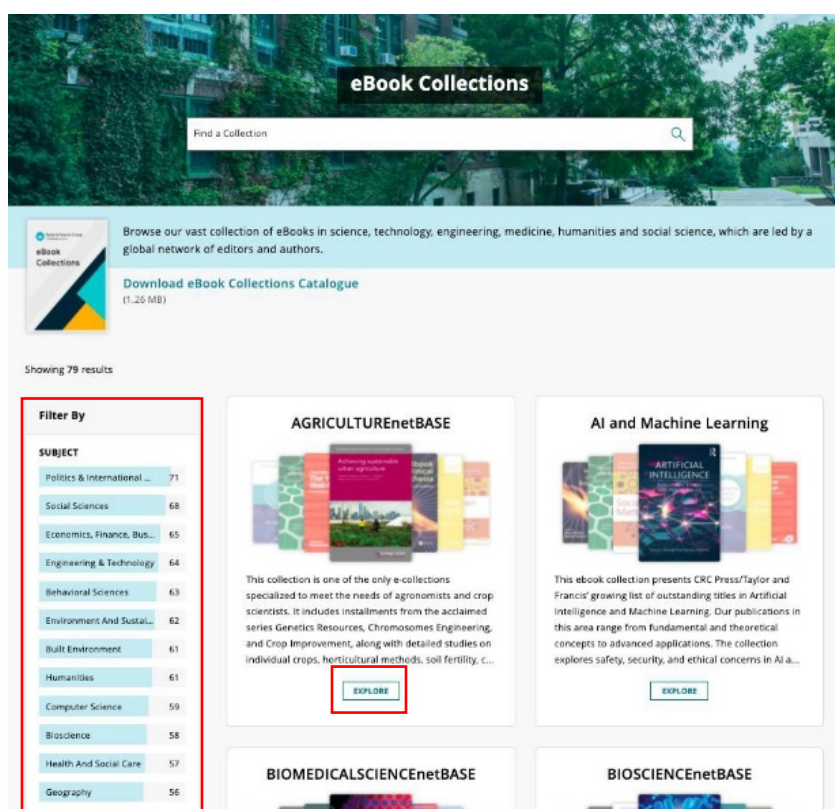

Clicking 'Browse' from the menu will let you see our content by eBook Collections or eBook Series, and allow you to view all our Open Access content.

Browse by eBook Collections

Browse through our extensive catalog of eBook Collections. The subject filter will help you find collections most relevant to you.

Use the 'EXPLORE' button to see the full list of titles within the collection.

You can filter the collection using a number of available search filters, or download full list of titles using the 'Download Collection Details' button.

To request a free trial for a collection, click the 'Request Trial For Collection' button, submit the form and our sales team will reach out to you.

Browse by eBook Series

Browse titles alphabetically, or search for our eBook series. To explore a series, click the series name from the list, you can also download the full list of titles in the series using the 'Download Series Details' button.

ACCESS TYPES

To help users find the content to which their institution has access, the **'Content I have access to'** checkbox on the search page can be used to narrow down the search only to the content that has been bought by the institution, forthcoming titles, and/or Open Access content.

In the example below, a search has been carried out by typing 'education' as a simple search term, and then adding a 'Sociology of Education' subject filter. These filters can be seen below the search bar.

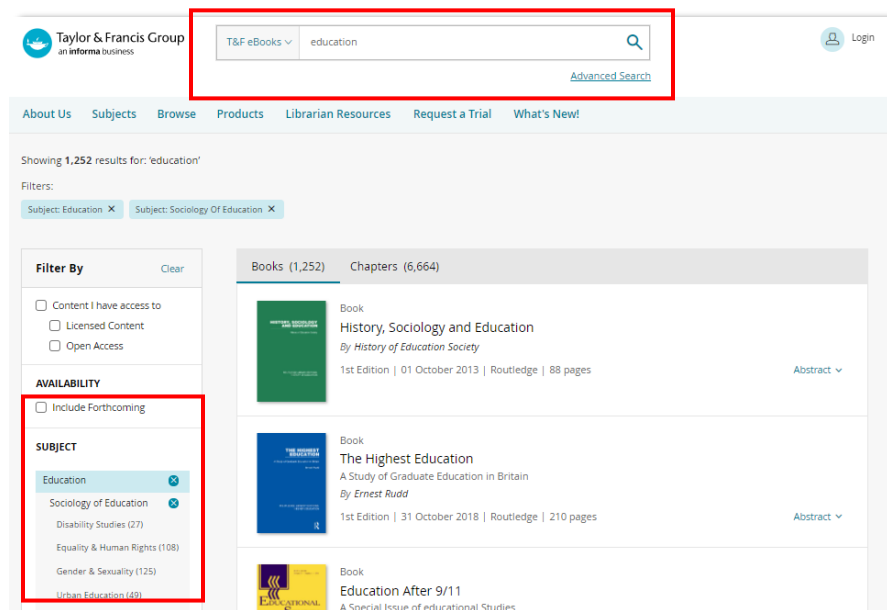

Results will be returned from within the 'Sociology of Education' subject category, where 'education' appears anywhere in the book's text.

ABSTRACT

Originally published in 1971, this volume examines the relationship between the history and sociology of education.

History does not stand in isolation, but has much to draw from and contribute to, other disciplines. The methods and concepts of sociology, in particular, are exerting increasing influence on historical studies, especially the history of education. Since education is considered to be part of the social system, historians and sociologists have come to survey similar fields; yet each discipline appears to have its own aims and methodology.
